SUBPART A: INTRODUCTION, DEFINITIONS, AND APPLICABILITY

Section 407.40 Purpose and Applicability

- a) The purpose of this Part is to prescribe the minimum standards for licensure as a day care center and to describe how to apply for a license. This Part also establishes requirements for the daily operation of day care centers that serve children. The Child Care Act of 1969 excludes some facilities from the requirement to be licensed. These exclusions from the licensing requirement may be found in Section 2.09 of the Child Care Act of 1969 [225 ILCS 10/2.09] and are explained in Department rules 89 Ill. Adm. Code 377, Facilities and Programs Exempt from Licensure.
- b) The licensing standards set forth in this Part are applicable to day care centers as defined in the Child Care Act of 1969 that are also known as child care centers.
- c) All the standards of this Part apply to partially exempt programs as defined in Section 407.45 unless the standard states those programs are exempt.

- d) Individuals, corporations, associations, and groups may write to the Department of Children and Family Services and request a declaratory ruling with regard to the applicability of this Part to their circumstances when the requestor has requested an interpretation from the local licensing authority, but has been unable to obtain such an interpretation or is not satisfied with the response obtained.
- e) Such requests for declaratory rulings shall be addressed to the Department of Children and Family Services, Office of Child and Family Policy Rules and Procedures, 406 E. Monroe Street, Station # 65-D, Springfield, Illinois 62701, shall fully outline the facts of their inquiry, shall provide names and addresses of any Department staff who have been involved in evaluating the applicability of this Part to their circumstances, and shall include a copy of any written interpretations or directions received from the local licensing authority.
- f) The Department may provide declaratory rulings upon receipt of the initial request or may ask the inquirer to provide additional information within 15 days before a declaratory ruling is issued. Failure to provide the additional requested information within the 15-day period will terminate the request for a declaratory ruling.
- g) A declaratory ruling regarding the applicability of this Part upon the inquirer will be issued in writing within 60 days after receipt of a complete inquiry which fully states the question and accurately outlines the facts of the inquiry.
- h) A request for a declaratory ruling shall not delay the implementation of any licensing enforcement action including but not limited to corrective plans, refusal to renew, revocation or other enforcement activities.
- i) *Declaratory rulings shall not be appealable. (~~Section 5-150(a) of the Illinois Administrative Procedure Act~~ [5 ILCS 100/5-150(a)])*
- j) The Department shall maintain as a public record in its principal office and make available for public inspection and copying any such declaratory rulings. The Department shall delete trade secrets or other confidential information from the ruling before making it available to the public. (See Section 5 of the Freedom of Information Act [5 ILCS 140/5].)

Section 407.APPENDIX B Equipment for Preschool Children

MINIMUM EQUIPMENT AND SUPPLIES: PRESCHOOL PROGRAMS

This list of minimum equipment and supplies and their arrangement is not intended to define nor limit any program's philosophical approach. A minimum quantity and variety of materials is required to stimulate the development of preschool children. This list takes into account the following characteristics of preschool children:

- ___ short attention span;
- ___ needs for active and quiet play over a short time period; and
- ___ need to learn through concrete activities

Unless otherwise noted, the same item may fit into more than one category. For example, a particular cognitive game may be acceptable under the "Small Muscle" category or the "Cognitive" category. ------------------------------	---

LARGE MUSCLE – OUTDOORS

In the following chart, the numbers of children refer to 25 percent ~~1/4~~ of the center's licensed capacity **OR** the number of children who use the playground at any one time, whichever is greater.

Playgrounds are required to accommodate at least 25 percent ~~1/4~~ of the center's licensed capacity. However, some playgrounds are big enough to accommodate more than 25 percent ~~1/4~~ of the licensed capacity. A center licensed for 40 children with a playground that can accommodate 10 children would need enough equipment for 10 children, while a center licensed for 40 children with a large playground that all 40 children use at once would need adequate equipment for 40 children.

LARGE EQUIPMENT		MEDIUM EQUIPMENT		SMALL EQUIPMENT
Two items from this column for every 20 or fewer children <ul style="list-style-type: none"> • climber* • slide • sand box • building blocks/ pieces (set of 40 large blocks) • water play equipment (water trough, hose, sprinkler, etc.) 	Plus	One item from this column for every 10 or fewer children <ul style="list-style-type: none"> • wheel toy (tricycle, wagon, etc.) • balance beam • tunnel • rocking boat • etc. 	Plus	One item from this column for every 7 or fewer children <ul style="list-style-type: none"> • ball • jump rope • hula hoop • etc.

* On a large climber with several sections, each section counts as one item.

EXAMPLE: A center with 37 children using the playground at the same time would require: 4 items from the large equipment column; 4 items from the medium equipment column; and 6 items from the small equipment column.

NOTE: Indoor large muscle equipment may also be counted as outdoor equipment if it is available outdoors when the children are outdoors.

Programs that operate for three3 hours per day or less and provide outdoor play, programs that carry equipment to a remote outdoor play area and programs with playgrounds serving fewer than 20 children may substitute for the large equipment as follows: one medium equipment item for every three3 children, plus one small equipment item for every seven7 children OR one small equipment item for each child.

(Source: Amended at 48 Ill. Reg. _____, effective _____)

Section 407.APPENDIX C Equipment for School-Age Children

MINIMUM EQUIPMENT AND SUPPLIES: SCHOOL-AGE PROGRAMS

The quantities of equipment and supplies for school-age programs may be defined in three possible ways:

- 1) The proportion for the total program size, as defined by the maximum daily attendance of the entire school-age program.
- 2) The proportion required for each "functional group", defined as the maximum group size allowed in a defined space that can offer a certain activity.

Example 1: If a school-age child care program had 60 participants in three self-contained rooms each containing 20 children and one or more staff, and the lead staff member in each room independently did program planning, the program would contain three "functional groups."

Example 2: A program with 60 participants divided into groups of 20 with a carefully planned curriculum based on rotating each group through specially equipped, limited-purpose rooms would have a functional group size of 20 to 60, depending on how many rooms would potentially have children utilizing a certain function simultaneously.

If Arts and Crafts could be done in only one of the rooms, which held a maximum of 20 children, the functional group size for Arts and Crafts would be 20.

If Dramatic/Creative Play could occur simultaneously with a group of 20

in the gym and another group of 20 in a different room, the functional group size for Dramatic/Creative Play would be 40.

If Fine Motor Activities were potentially available in all three rooms, the functional group size for Fine Motor Activities would be 60.

- 3) The absolute number of items required regardless of program size or type of scheduling/space utilization.
